Stereo Microscope MMSM-A105

Stereo Microscope MMSM-A105 offers a magnification range of 4X to 300X. Provides ample space for sample manipulation with standard working distance of 115mm. Its high-quality optical system ensures clear, distortion-free imaging. Built with sturdy CD base to provide stability. Our microscope provides multiple illumination options ensuring optimal lighting for different specimens.

Features:

Flat wide-field eyepiece with adjustable visibility

High-eyepoint eyepieces.

Ergonomic binocular viewing head

Flat field parfocal zoom objectives

Sharp clear images with great flatness and contrast

Applications:

Stereo Microscope MMSM-A105 is highly adaptable for research, medical diagnostics, electronics assembly, and educational applications.

Specifications :

Viewing Head	Binocular Head, 45° inclination, 360° rotatable
Diopter Adjustment	+/-5 diopters
Interpupillary Distance	52 to 75mm
Eyepiece	10X/22mm
Objective	Zoom Range: 0.8X to 5.0X Zoom Ratio: 6.3:1
Total Magnification and Field of View	Standard: 8X to 50X, FOV 27.5mm to 4.4mm Optional lens: 4 to 300X, FOV 55mm to 0.8mm
Working Distance	Standard: 115mm Optional lens: 43.5 to 211mm
Base	CD Base
